Many thanks for your continued support. Should you have to change your dates, please arrange a swop. Please contact the next person on the list when you have completed your stint.

Any problems, please contact Brendan Riley 632652 or Mal Cracknell 632282.

A hose pipe is located at the side of Christ Church, access by combination padlock code 1693. This hose will reach the 2 tubs at the War Memorial, 3 hay racks on the Heritage Centre railings, the large box on the corner of the pond, the WI box and the 4 tubs outside the church, 5 hayracks on the curved wall. When watering the hayracks on the Village Hall railings ensure the pipe connectors are not laid on the road. Please turn off the water and rewind the hose after use. Watering cans are also available.

A hosepipe is available at the rear of Ewan's Mere Cottage (attached to Mere House). This will water the sycamore bed, the hayrack on the wall of Ewan's Mere Cottage Please rewind hosepipes and detach from the tap. Watering cans are also available.

At the western end of the pond, a hosepipe at Mere Flats will water the adjacent flower beds and the tubs near the bowling club & the hayrack on the Swan sign post. Please do not water the new community garden from the driveway to Mere flats as this causes soil to wash down onto the new paved area and the benches: it is better to water from the new paved area. Please water the hayracks at Stanifords Estate Agency & Ewan's on Sundays and Bank Holidays.

Finally, as we all probably know, evening watering is better, if possible, than daytime in the hot sun. Recent rain does not necessarily mean we don't have to water.

HAPPY WATERING.
