Many thanks for your continued support. Should you have to change your dates, please arrange a swop. Please contact the next person on the list when you have completed your stint.
Any problems, please contact Brendan Riley 632652 . n.b. I am away until July 10th. Graham Latter continues in his extremely valuable role maintaining and repairing the hoses. Any problems please ring him on 632276.

There are 3 Watering points around the pond

Mere Flats Hose Reel - hose will reach the Village Sign post hanging basket and plants bed at west of pond.

Christ Church Hose Reel (entry code lock1693) hose will reach the War Memorlal and plants outside Christ Church.

Village Hall Tap (entry code lock1693) to fill watering cans for Village Hall hanging baskets.

PLEASE TURN OF VALVES AFTER USE AND REPORT ANY DEFECTS TO water@swanland.info

A hose pipe is located at the side of Christ Church, access by combination padlock code 1693. This hose will reach the 2 tubs at the War Memorial, 3 hay racks on the Heritage Centre railings, the new hay racks on the corner of the pond, the WI box and the 4 tubs outside the church. When watering the hayracks on the Village Hall railings, you will now find a tap to the left of the Main Entrance Door outside. This has the same combination lock code 1693 and you will have to use watering cans .

Finally, as we all probably know, evening watering is better, if possible, than daytime in the hot sun. Recent rain does not necessarily mean we don't have to water.

HAPPY WATERING.
